PROFILE

Passionate Software Engineering student with hands-on experience in Python, backend systems, and AI-based projects. Skilled in designing and building real-world applications using modern frameworks like React, Flask, and OpenCV. Proven ability to work independently, teach others, and rapidly learn new technologies.

Education

iTeam University, Bachelor in Software Engineering and Information Systems - 2023 – Present
Tunis, Tunisia

Lycée Sidi Alouane, Diploma in Computer Science – Mahdia, Tunisia 2023

WORK & TECHNICAL EXPERIENCE

AI-Based Application Development | Zaddem Consulting | Jul–Aug 2025

- Built FormalIA using FastAPI + Streamlit and OpenAI/Hugging Face APIs to automatically generate structured educational content: courses, summaries, quizzes, and PowerPoint presentations
- Developed multi-format export system (PDF, DOCX, PPTX) using python-docx, ReportLab, and python-pptx with professional formatting and layout

Python Instructor | Université Dauphine Tunis | Jun–Jul 2024

- Trained students in core Python, Artificial Intelligence (AI), Mentored students in debugging and algorithm optimization

Local AI Chatbot with Ollama Integration

Github

- Built interactive Streamlit chatbot with local LLM integration, real-time streaming responses, and customizable parameters (temperature, tokens, system prompts)

Hand-Tracking-Project

Github

- Developed real-time hand gesture volume controller using OpenCV and MediaPipe with OS audio API integration for touchless system control

Air Quality Predictor

Github

- Built a Python ML tool for predicting PM2.5 levels using real-time air quality data

Shell

Github

- Implemented a Unix-style shell in C that executes and parses user commands

SKILLS

- Programming: Python, Java, SQL
- Frameworks/Libraries: Streamlit, React.js, TailwindCSS, OpenCV, MediaPipe, Flask
- Tools: Git, Linux Shell

Languages

Arabic: Native **English:** Intermediate **German:** Beginner

Certifications

- Python Essentials 1 (Cisco Networking Academy)
- Intro to Machine Learning (Kaggle)
- Hackathon Staff – ISERobot 2.0 (Future Technology Club)
